

A shallow-depth medium powered in-ground that combines technology and performance in a modern shallow form factor. Packed with features including **EasyGlow™** visual comfort and **CoolDrive™** thermal management technologies. Available with integrated DALI control, 0-10 V dimming or as non-dimmable.

Pre-Installation Blockout

This type of installation requires the LS6052-K Pre-Installation Kit (ordered separately), which acts as a concrete blockout and is intended for installation before the luminaire. This method ensures the luminaire itself is not damaged during concreting or other site works.

Used for	Drive over applications General use applications Concrete pour applications where luminaire is to be installed after site work has been completed.
Benefits	Easy removal for servicing
Accessories	LS6052-K Pre-Installation Blockout

Connection type '84'

Flexible Cable

For connections to the branch circuit via junction box (by others) or other approved method. 9.8' (3 m) length. For other length options, contact Lumascape.

Specification

Use the table below to specify your Pre-Installation Blockout.

LS6052-K	-		
Connection Type	Code	Input Voltage	Code
Flexible cable, single entry, for hard wired installations.	84	220-240 Vac, 50 Hz	01 <sup>1</sup>
		120/277 Vac, 60 Hz	09 <sup>2</sup>

Flush Cover Options

Flush covers for pre-installation, use special seals and support bushes to ensure static loads up to 9,259 lbs (4,200 kg) are properly supported. In order to achieve this drive-over rating, OptiClear™ or GripGlass™ must be used.

Mounting Collar for decks and grates

This type of installation requires the LS640-2 Mounting Collar (ordered seperately), to support the installation in decks, grates and hollow floors with sufficient ventilation.

*Not available in North America.*

Used for	Decks and grates Hollow floors with sufficient ventilation
Benefits	Easy installation in decks, grates and hollow floors
Accessories	LS640-2 Mounting Collar

Direct Burial

Luminaire is put directly into soil or concrete.

Used for	Landscaping areas Applications where depth is restricted Rate for use in concrete pour applications Economical options
Benefits	Easy removal for servicing
Restrictions	Not as easy to remove for service as pre-installation version Not suitable for drive-over (requires pre-installation kit)

Connection type '84'

Flexible Cable

For connections to the branch circuit via junction box (by others) or other approved method. 9.8' (3 m) length. For other length options, contact Lumascape.

Recessed Cover Options

Use recessed cover for installation in soil, grass, pavers and other uneven surfaces where no cover overhang is required.

Round Recessed Cover  
■ SS316: Polished  
■ SS316: Brushed

Flush Cover Options

Use flush covers for installation in fine finished surfaces such as granite and marble. Can also be used in some suspended applications to conceal gaps between the luminaire and the surrounding surface.
